## ALL THE LATEST NEWS OF THE BUSINESS MAYOR'S NEW TUNNEL PLAN.

Mr. Low Will Support President Cantor in Demand for Labor Clause.

WANTS EIGHT-HOUR DAY

Citizens Should Go Before Rapid Transit Commissioners and Suggest Changes in Pennsylvania Franchise.

Publicity is now the cry of the city ale in the awarding of the franso for the Pennsylvania Railroad tuncausing the original franchise to be rescinded heads of the city's departnts applaud his action and declare that too much haste was shown in the matter of drawing up the franchise

Not only will the new franchise be radically different from the one accepted by the Commission, but it will contain the stipulation fought for by President Cantor, that the Eight-Hour law be one of the clauses in it. The demand will be made and the company must will be made and the company must unawarded. That is the present atti-

The Mayor departed to-day from his usual custom of not talking for publication on days other than Thursday, He

### Wants People to Suggest.

"This is a new franchise, and I felt that we should take all care to make it as complete and satisfactory as possible to all concerned. The place where sugto all concerned. The place where suggestions from the public as to its form should be made is before the Rapid Transit Commission, which is charged with the duty of changing it, and my resolution was prepared and adopted with a view of giving the public an opportunity to appear and be heard.

I think the propriety of this action will be apparent to every one when it is understood that all changes in the form of the franchise must be made by the Rapid Transit Commission and accepted by the Aldermen, who have power only to accept or disapprove it. My action evidences no unfriendliness whatever to the enterprise. I am earnestly desirous of seeing a franchise perfected that will be accepted."

President Cantor said:

"The fact that a man may oppose the franchise in some of its aspects does not indicate by any means that he is opposed to the granting of the franchise as a whole. It is a great enterprise, and the city must proceed slowly in the matter. We must be given proper time to go into the smallest details. This is not a franchise of several years. It is to be given in perpetuity. I feit all along that we were proceeding too hastily.

# THE STEEL TRUST.

That Conversion Plan Was Fully Authorized by Corporation Act.

# FINAL PLANS FOR

TRENTON, N. J., Sept. 25.—Justice Van Sickel, of the Court of Errors and Appeals, to-day filed a written opinion in the United States Steel Cornoration case that was recently decided by the Court in the corporation's favor. The case before the Court was the suit instituted by Mrs. Miriam Berger.

The opinion filed to-day sustains the constitutionsilty of the act of last winter under which the corporation undertened to convert \$200,000,000 worth of prefaired stock into a like amount of bonds.

The opinion also holds that the procedure followed by the corporation carrying out the conversion plan was fully authorized by the general corporation act.

This is a complete victory for the United States Steel Corporation.

### YOUR SUIT, YOUR TOP COAT, YOUR RAIN COAT,

You can spend \$20 elsewhere with less satisfaction-you can pay \$15 and utterly fail to come in the same class, and you can expend less and get considerably less. When we set about making these Suits and Topcoats we hadn't a selling price in view. We simply made 'em best and discovered afterward that we could retail the lot at a close margin of profit for \$15. You're lucky—look 'em over. Buy and if cash isn't plentiful pay part down and settle the rest on that ever-liberal Hecht part payment plan.

Prince Albert Coats and \$15 to \$30. With a hundred or so styles between \$15 and \$30. You aren't

safe these days without a Prince Albert coat and vest in your wardrobe. You've got to be particular about buying, too. That's why ours will appeal to you. If it's only to look, come and look 'em over.

A\$25 Special in the Custom Dept.

At \$35 it would be equally as strong an attraction. When you want custom tailoring that's different—you want Hecht's. Our facilities are unusually favorable to unusual results, with woollens in

vast array. Besides enthusing you with the suit we enthuse you with terms. Pay in part settlements—that's all.

300 Boys' \$5 & \$6 Suits at \$3.50.

Of course we have hundreds at that price, but not on a par with this special number. The suits we refer to in the caption are \$5 and \$6 garments. In styles of every description. Sailor Blouses, two-piece, double-breasted affairs, three-piece suits from 3 to 16 in sizes. It's a rare chance—\$3.50.

\$6.50 Reefers at \$4.48.

As to Infants' Wear.

A fair estimate of the values we give is to be gained by this special \$4.50 Reefer—description is entirely anadequate; heavy weight Kersey cloth, box front, sizes 4 to 18 years; your investigation necessary—34.48.
